HARDSHIP REQUIREMENTS

The Board shall hear requests for variances where it is alleged that the provisions of this chapter inflict unnecessary hardship upon the appellant. The Board may grant a variance, provided the following findings are made where relevant in a given case.

1. that there are unique physical circumstances or conditions; there is no possibility that the property can be developed for any use permitted within the district or districts or in accordance with the provisions related to the district in which the property is located in strict conformity with the provisions of this chapter, and that the authorization of a variance is therefore necessary to enable the reasonable use of the property.
2. that because of such physical circumstances or conditions, there is no possibility that the property can be developed in strict conformity with the provisions of the Zoning Ordinance and that the authorization of a variance is therefore necessary to enable the reasonable use of the property.
3. that such unnecessary hardship has not been created by the appellant.
4. that the variance, if authorized, will not alter the essential character of the neighborhood or district in which the property is located, nor substantially or permanently impair the appropriate use or development of adjacent property, nor be detrimental to the public welfare.
5. that the variance, if authorized, will represent the minimum variance that will afford relief and will represent the least modifications possible of the regulation at issue.
6. that the variance will not be contrary to the public health, safety, morals and general welfare.
