ITEM # 1  PUBLIC COMMENT – FIVE MINUTE LIMIT PER PERSON
FORTY-FIVE MINUTE MAXIMUM

Ms. Marla Lipkin said she is here on behalf of the education support professionals of Pennsbury. Their group proposes an initiative for students to help them create a passion for reading. Having a library near the township park and next to a playground would enable students to easily access books. There are currently four libraries being built for them which will be located in surrounding communities including Falls Township and Lower Makefield. Ms. Lipkin thanked the board for consideration of their proposal and said they look forward to a positive response. Chairman Harvie said some of the team members have approached the township in past months. He suggested that Ms. Lipkin meet with Mr. Brian Andrews (Parks and Rec Department) and Mr. Jason Lawson (Public Works Department).

Ms. Shawn Stillwell spoke about Elcon. She said everyone she talks with is absolutely against it. She thinks it is important that they keep attending these meetings to let the board know they are against having this company located in our community. Ms. Stillwell thinks it should go somewhere else and certainly not near a water source.

Ms. Jennifer Sayors said many people in her neighborhood feel the same way she does. We do not want Elcon here.

Ms. Alicia Jorgenson said she doesn’t want Elcon and doesn’t want her kids to breath in the air. She is also concerned about a decrease in her home value.

Ms. Lisa Farrell said she is here again in regard to Elcon. She said people are scared about the power with which Elcon wants to force this on us. If anyone went to the Sheaton meeting, Elcon said they have no problems with permits. Ms. Farrell shared an article from an Israeli newspaper and said they do have problems. Ms. Farrell said people are saying

that this is not an incinerator, but she believes a thermal oxidizer is an incinerator. There is a difference in the way it is being portrayed. They are not saying that this is a horrible company or what they are doing is horrible thing. They are saying that there is too much population here and too much damage that could be done to our waterways and our air. We don’t want the possibility of an accident. No matter what their best intentions are, something will always go wrong.

Ms. Veronica Lee said she has been a Falls Township resident for 22 years. She wanted to attend tonight’s meeting to show her support for the people who are against Elcon. Ms. Lee said we do not need another hazardous waste facility in our area.

Mr. Roland Kenney told Member Galloway that it was a fantastic St. Patrick’s Day parade. Mr. Kenney asked where the money goes for the vendor sales. Member Galloway said there were specific items being sold that benefited the parade and other vendors as well. Mr. Kenney is against Elcon and said we do not need this in our township.

Mr. George Baxter is a local businessman with his business located off of Rt. 13. Mr. Baxter spoke about Dean Sievers Place and said he spoke with business people in that area. Three of the four businesses across from the proposed Elcon site are opposed to this business being located here. If you go down there on a cloudy day, when you get out of your car, there are times you could use a respirator due to poor air quality. People who work in that area cover up their cars during the day. Mr. Baxter said there will be an informational meeting this Wednesday at the Bucks County Free Library off of New Falls Road for those who want to know more about Elcon.

ITEM # 2 CONSIDER PROPOSAL FOR PARANORMAL ACTIVITIES FOR THE THREE ARCHES HISTORICAL BUILDING

Mr. Newman spoke of their group’s proposal to conduct paranormal activities at the Three Arches. He said their group wishes to not only conduct studies, but learn about the history of the Three Arches and volunteer for any clean ups at the facility and help with other events. Mr. Newman spoke of other places his group has been to. They like to focus on the history and awareness of these buildings instead of seeing them vacant. They use their own equipment in the buildings and respect the property. Ms. Gallagher said they required the individuals to have a rider with our insurance carrier which was an extra cost and the organization did pick up the cost. Member Boraski moved to open public comment; Member Dence seconded the motion; all board members were in favor. (4-0) Mr. Guido Mariani wanted to remind the board that the Three Arches building is as much his building as anyone else in the township. Member Boraski moved to close public comment; Member Galloway seconded the motion; all board members were in favor. (4-0) Mr. Andrews said the group proposes to meet a couple times each year and then help out at special events. Mr. Newman said there are
different groups that do the types of things Mr. Mariani mentioned, but their group does not want anything to do with something like that. They take it as to what is going on inside of the walls. They don't do exorcisms or other things you read about in the newspaper. It is about the history of the building, the people who lived there, and the spirits. We had wonderful weather and marched in honor of our law enforcement. There were over 100 volunteers and thousands of participants and thanked everyone who was involved.

Chairman Harvie thanked Member Galloway for the St. Patrick’s Day parade. As we are coming up to this weekend, it is a special time of the year for Christians and Jewish as well. Happy Easter and Happy Passover to members of our community. Chairman Harvie said at a time when we are supposed to be recognizing peace, harmony, and rebirth, he would ask people to think seriously about the upcoming elections and decide if their vote is going to reflect what this country should be doing and where it should be going. Some things that are happening are worrisome and people have legitimate concerns. There are times were we need to step back and make sure we are living up to the phrase of the ‘greatest country in the world.’ Hopefully, this week will make people think about the words they say, post online, the things they believe, the direction they want the country to go, and will make the right decisions. Chairman Harvie thanked everyone for their time and effort in this meeting.

Member Dence moved to adjourn the meeting; Member Galloway seconded the motion; all board members were in favor. (4-0) The meeting was adjourned at 8:30 p.m.
